-
- APPLIANCE REPAIR
- TONY -512-339-8300

Air Conditioning:

- We mainly build new construction, but also do large remodels. For these remodels, I use Eddie Pessin with Generations Heating & Cooling. His number is 848-3855...very good and very reasonable for service calls and maintenance. He is also located very near the subdivision!

Mandee Poling

- We have used Pardners AC which is on 1431 between Lago and Jonestown. We have used them for years and find them very dependable and reasonable.

Don Killough

- Cool Comfort Air Conditioning, Eddie Liboy @512-696-6766. Eddie keeps all our AC/Heating in good working condition.

Rita Mercado

- We have a recommendation for a contractor to check out a/c system; it is:

Lee Mechanical-(Glen Lee) #791-6882

Barbara & Larry Amidei

We received a request from this company to be added as an approved contractor:

Casa Watchers is Insured & Bond. We always pull permits when required even if it's for adding one electrical outlet and use only licensed professional when required such as plumbers, electricians, etc... We only work with subcontractors and vendors that are true professionals and not a jack of all trades and they must carry insurance, bonding when necessary and are permitted to work legally in the United States. We are currently doing property management and home improvements throughout The North Shore including such neighborhoods as The Hollows and Northlake Hills.

Please feel free to check out our website below to learn more about Casa Watchers.
